DETAILED ACTION

This action is in response to the submission filed on 3/26/09. Claims 1-3, 5-40 are presented for examination.

Allowable Subject Matter

1. Claims 1-3 and 5-40 are allowed.
2. The following is an examiner's statement of reasons for allowance: While Jones and Zimmer teach a method for a bimodal virtual device, neither of these references, taken either alone or in combination with the prior art of record disclose:

(Claim 1) "second mode comprising an idealized mode, the idealized mode configured to send input/output instructions from a guest operating system to a host operating system, the processor requiring a second amount of cycles to send the input/output instructions, the second amount of cycles lower than the first";

(Claim 11) "a second mode of the bimodal virtual device, the second mode optimized to send input/output instructions from a guest operating system to a host operating system, the processor requiring a second amount of processor cycles to effectuate the second mode, wherein the second amount of processor cycles is less than the first";

(Claim 21) "the processor configured to operate in the second mode by executing instructions that send input/output instructions from a guest operating system to a host operating system, the processor requiring a second amount of processor cycles to send the input/output instructions, the second amount of processor cycles lower than the first"; and

(Claim 31) "the second mode configured to send input/output instructions from a guest operating system to a host operating system, the second mode requiring a second amount of processor cycles to send the input/output instructions, the second amount of processor cycles being less than the first",

in combination with the remaining elements and features of the claimed invention. It is for these reasons that the applicant's invention defines over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
